

Step By Step

Upload Your MidWestOne Card to Google Pay

Your card design may be different than shown.

On your mobile device, download the Google Pay app and open:

- Tap on your Profile Picture and then Bank Accounts and Cards and then Add a card.
- Enter your phone number to pay and receive money from friends.
- Enter the card number, expiration date, CVV, and your name and billing address. Tap Save.
- Accept issuer Terms & Conditions. Google will contact your bank to verify your card. Choose how you will verify. You will be asked for additional authentication via one-time password. One-time password will be auto read or you can enter manually.
- Next to your new card's payment method listing, tap Activate.
- Enter your one-time password.

Important: You should receive this password via text message to the phone number associated to your Google Pay account. If you

don't receive a one-time password, verify that your contact information is correct. If your contact information is up to date, contact MidWestOne to troubleshoot.

- Enter your one-time password. You will see a confirmation. If you do not see a confirmation, double check your card information and try again.

After your card is verified, you're ready to use it for transactions.
